SERVICE

MOBILE SERVICE

M 830 M

Universal super-automatic tyre changer for rims up to 30", ideal for car, SUV and commercial vehicle wheels; enables the user to mount and demount any type of tyre currently available on the international markets, from standard to sport tyres, from low profile tyres to special **UHP** and **"run flat"** ones.

The same working movements in the demounting procedure, but absolutely no effort is required from the operator thanks to the **"LEVER-LESS" technology** incorporated in the tools head.

Mounting and demounting operations benefit from the simple traditional procedure complemented by innovative solutions such as the bead breaker disk and spindle wheel clamping.

B 115 Evo Mobile

Electronic wheel balancers for car, van and motorcycle wheels.

Special version for mobile service. It can be extracted from the side door and allows working comfortably outside the van.

Lever-actuated motorized spin version, AutoSel 28" automatic wheel size detection. Lever operated clamping brake.

Many standard and customised van configurations to met every need.
